AFRICA SHALL BE SAVED by Mike Jones

In America, staying in other people's homes, we watch the News on TV together. It could be called "the bad news", or "the depressing news". I understand, this is what "sells", what people want to watch. I've also discovered, when my heart is "tuned in" to The Kingdom of God, I see Him in everything. I "see" Him standing and calling all to "the way" He's prepared. When I didn't "hear" His call I couldn't walk in His path. When I was on the wrong path He was calling me back to His path. The bad news is, the number of orphans in Zambia. I'm sure the devil thought he had won when John, or Bright, or Anna, or any of our orphan children found themselves with no one able to care for them. They were hanging onto the very bottom rung of society, given little chance of making it in this world. What the devil meant for harm, God made a

way for something good. As I write, the children that were the lowest in society have no lack. Those of you that have seen them know they are happy children living a good life. I can imagine all hell rejoiced when our four year old girl fell into the septic tank and died. The rejoicing was premature, as God had already arranged for our "mothers", working for Him, called uneducated by the world, brought her back to life! Because she was only four, she doesn't remember. Today, she is back with her relative, always smiling, doing well in school, and faithfully in church. Practically all of our children have stories of eminent disaster turned into glorious victory. I can't tell you all of the villages that had no churches, but plenty of witchcraft, that today have churches and no witchdoctors. From these villages the gospel spreads far and wide. I've seen very

remote areas, where no one had ever gone on to higher levels of learning miraculously had the University of the Holy Spirit (MOT-MOT) come to them. From these most unlikely places, church planting teams go out to other needy people, bringing them to Jesus, seeing miracles and healings, casting out demons, and planting more churches. I could talk about the time a man shooting an automatic weapon shot at me, not knowing God prepared a way that would keep me safe and untouched from bullets flying all around me. Or, the time a whole village came out to attack me. I walked away unharmed. All of the attackers came back and asked my forgiveness. Or, the time I was attacked by killer bees, three rounds! Linda was having fits (concerned for me), but I was fine.

TURN PAGE OVER

Family

Or, the time a stick longer than my head went up my nose. I know, I wasn't harmed because nothing was in my head to harm. Or, the time my bowels were blocked. God already had a Zambian Doctor in place to fix me "as good as new". I can't even remember all of the times, and probably won't know until I get to heaven, that God made a way when there seemed to be no way. When you see and hear

the bad news, that's not the end of the story. Look around. God was there before your trouble. He has already made a way for you to get back to His way, His life, the good life in Him. People like you, our partners, called on the Lord in prayer for us, before we even knew we needed Him. Don't just accept the bad news. Fight the good fight of faith. Trust in the Lord. Look around and listen for

the Lord calling you to the path of your deliverance. Many missionaries before us were never able to step back from the front lines and enjoy being with their family and friends. We could never repay you, our partners, for making these couple of months of refreshing possible. But God will richly reward you. More of you Lord, so we can do more.

Remain Faithful,

Prayer

For multiplication of harvest in Zambia.
For the ministry in Africa while we are out.
For the ministering teams coming next month.

Praises

For our family together and with God..
For our partners and blessed partnership.
For HIS strength and endurance.
