LATTER RAIN

by Mike Jones

Beautiful life giving rain is falling as I type. Most farmers will shift from praying for a sufficient harvest to thanking God for His provision. This rainy season was looking bleak until cyclones off the coast of Mozambique brought us abundant precipitation in the month of January. The land had dried out, but this rain will carry the growing season to completion. Most pastors in Zambia, and practically everyone living in the rural areas, provide for their families through farming. These farmers have lived through days when nothing could be found to eat. Still, they plant seeds they would like to eat in the ground, fully believing they will harvest large sacks of seeds for all to eat throughout the year. Actually, severe physical drought of years past helped wake them up to “see” the spiritual cloud and stand in the “rain” of the Holy Spirit

Throughout history, and in the Holy Bible, times of spiritual drought (pain, heartache, war, and all kinds of trouble) prompted people to open their “eyes” and see

the spiritual cloud, and receive the “rain” of the Holy Spirit. Driving home after dropping my daughter Jamie’s family at the airport in Lusaka (I couldn’t go inside the airport due to covid re-

strictions), after passing Choma on a pitch dark rainy season night, all of a sudden a truck appeared only a few feet in front of me. The truck had no lights at all and was moving very slowly in the middle of our lane. Vehicles

were coming on one side and obstacles on the other. This truck was doing public transport and probably had twenty people sitting in the back with luggage. When in the drought, and death (crops or people) is coming fast, and you’ve already braced for the hit, does hope remain?

Spiritually, my eyes were opened and I looked up and saw the cloud, and the “rain” of the Holy Spirit fell on me. Miraculously, I threw my Land Rover into a sideways slide, squarely hitting the tail of the truck with the broad passenger side of my vehicle. Everyone walked away, alive! Two people in the back of the truck had very minor cuts on their leg from their luggage. One person had a minor cut on their arm. The truck was not damaged at all! The Land Rover has been repaired and is probably better than before. The greatest results of this “drought” is what came after.

CONTINUED

from front

We have received two orphaned babies (Isabel and Junior), which hasn't happened in a long time. We are not rejoicing in babies orphaned. We rejoice in having a Godly place for these children, and the relatives giving them to us.

The School of Ministry (MOT-MOT) I thought was working at the highest level, has reached a level I didn't know existed! Its like God opened us up and poured a fresh anointing inside. Chabbobboma started a prayer meeting Thursday afternoons and invited me.

I walked into the house after prayers had begun. I could hardly stand up. Several of those praying fell on their faces without anyone laying hands on them. I guarantee you their churches will come up to "higher

ground".

I believe the current war is an indication of a spiritual "drought" that will cause people to open their eyes and see the cloud, and receive the "rain" of the Holy Spirit. The same with the or-

rain of the Holy Spirit has fallen on them. They are quickly becoming the leaders in their churches. Our world is in big trouble right now. If we remain faithful, "drought" will turn the trouble into eyes that see the cloud and are rained on by the Holy

Spirit with the good news of Jesus Christ. If "drought" seems to have hit your life, look up and turn your eyes upon Jesus in the cloud, and enjoy the rain of the Holy Spirit. As our

phan school sponsorship, I mentioned last month. The problem (drought) of orphans unable to go to school caused them to look up with opened eyes and see the cloud, and the

partners, the "rain" of the Holy Spirit that falls on us in Africa has also fallen on you.
